Keynote Speech

We are proud to announce All Energy Day's first international Keynote Speaker **Jeremy Rifkin**, writer of 'The Third Industrial Revolution' and advisor for the EU and Angela Merkel.

Round-table Sessions

Who needs to take the lead in the energy transition? How do we transform old houses into sustainable homes? Discuss brainbreaker questions with companies and fellow participants!

Debate

The energy transition is a broad subject that involves everyone. Spokesmen from different branches will defend their opinion on various subjects. Let your voice be heard in this interactive debate!

Workshops

Collaborate with our partner companies and discuss the challenges of today and tomorrow in the two hour Workshop sessions!

Exhibition Floor

Now is the chance to network with the companies involved. Engage in intriguing conversations and find out what you can do to be part of the solution!
