

Women in Energy 2019

“Shape the Future”

Do you want to be prepared for the future, where renewable energy, artificial intelligence and cloud technologies are gaining more prominence within our work? Are you curious about how this will affect future employability, talent retention and opportunities for women? **Join us!**

When: May 17th, 8:30 - 18:00

Where: KIVI Headquarters, The Hague

Program: Two opening speeches, panel discussion, five inspirational workshops and networking opportunities.

Our speakers and panellists:

Marit Brommer, Executive Director of the Int’l Geothermal Association

Daniel Jeavons, General Manager Data Science at Shell

René Peters, Business Director Gas Technology at TNO

Ellen Kroijmans, Director of Global Project Office at SBM Offshore

Mandy Brussaard, Senior Energy Advisor at BMC Advies

Registration is now open!
