

Symposium (10 May 2016)

'A decade of Geo-engineering, lessons from the past and an eye on the future'

To celebrate their 10th anniversary, geo-engineering master dispute De Ondergrondse organises a symposium which will focus on recent changes and the nearby future of geotechnical engineering. Four speakers will come by and provide us with interesting lectures about a topic of their field of expertise, related to the last ten years and the future. Each speaker comes from a different field in the geo-engineering sector.

Price

Students: Free

TU Delft staff, alumni and KIVI* members: €10

Professionals: € 150

Enrollment

Enrollment is required and can be done by sending an email to lustrumondergrondse@gmail.com.

More information about the payment method will then be provided.

Location

Filmhuis Lumen

Doelenplein 5

2611 BP, Delft

More information

Extra information about the topics and speakers can be found on www.undergronse.nl/second-lustrum/symposium

*KIVI TTOW and KIVI Geotechniek

Program 10-05-2016:

- 13:30 Reception
- 14:00 Openingspeech by honorary member Em. Prof. Ir. E. Horvat
- 14:20 'Past and future of the Finite-Element method in geotechnics - More than a quarter century PLAXIS' Ronald Brinkgreve (PLAXIS)
- 14:55 Small break
- 15:05 Buket Yenigul (Allseas)
- 15:40 'Building with nature' Jaap van Thiel de Vries (Boskalis)
- 16:15 Small break
- 16:25 'GIS: a valuable tool in geotechnical risk assesment' Jacco Haasnoot (CRUX)
- 17:00 Closing and drinks
